

We Are Scientists

Science Night 2016 - Thursday 27th October

6:30 – 7:30

Report to the office to collect your science passport then follow the path through the classrooms

Explore the world of planets, stars and the universe in the Grade 5/6 classrooms. There is a planetarium, reports to read and videos to watch.

Build an air fuel rockets in the Foundation classrooms. Let go and see how far yours will go.

In the Grade 34 classrooms you can mix up liquids to see which is the heaviest, it could get messy! Which liquids will float?

Light up a bulb and race magnets cars around a track in the Specialist classrooms. How do you get energy from a battery to light up a light bulb?

Supreme Excursions are visiting our school to help us build and test drive Billy Carts. Please feel free to donate a gold coin when you visit the LRC Library

Get your hands dirty making slime in the Grade 12 classrooms.
