

# Communication at HWPS

Our new website is up and running and looks fantastic. The responsive template allows you to read the website on any device without having to readjust your screen.

Please subscribe to the HWPS website Newsletter. Each week, an eNewsletter will be sent straight to your email account. You can [subscribe to our newsletter](#) from the new HWPS website.

We are in the process of phasing out the old PDF version of our newsletter and from Term 3 all communications will be sent via the website.

## HWPS Level Blogs

Another innovative idea to improve the communication between home and school is the introduction of Level Blogs.

The Blog will replace the class Term Newsletters classroom programs. Important information will be posted on the Blog regularly.
